**Subject:** FW: Purchase of books for Francesca  
**Attachments:** Open science.pdf; reproducibility and replicability.pdf

Hi Francesca,

I'm planning to assign this to another cardholder in Danielle's absence. It looks like the "Reproducibility and Replicability in Science" book is not scheduled to be released until Feb 2020.

I can have the cardholder order the Open Science book, but want to wait until the other book is released to place that order to avoid an open charge on the cardholder's account.

Please submit another request once the other book is available and a cardholder can order it at that time.

Let me know if you have any questions.

Hi Tia

Can someone purchase the books listed above for Francesca. I just received this request today and I am going on leave for 2 weeks.

Respectfully,

**Subject:** FW: Please figure out how to purchase these 2 books

Hi Danielle,

Francesca needs to purchase two books for a work-related talk/conference she is attending. I just wanted to touch base with you to see what the procedure for getting these books will be. Do I need to submit any particular forms to you, do you need me to pull any particular information, etc. So please let me know what the process is and how I can assist. Thank you very much!!

Blake

**Subject:** Please figure out how to purchase these 2 books

Hi there –

As you might know I have been invited to be a part of a retreat at Rancho Mirage in November to talk about a research integrity board. They have assigned us 2 National Academies Press books – Reproducibility and Replicability in Science and Open Science By Design. Can you please figure out how to buy these? I suspect you will have to work with Danielle.

Thanks  
Francesca
